IOWA UNIFORM CRIME REPORTS

1987 ANNUAL RELEASE

IOWA DEPARTMENT OF PUBLIC SAFETY
Wallace State Office Building
Des Moines, Iowa 50319

Fall, 1988

STATE OF
IOWA

TERRY E. BRANSTAD, GOVERNOR

DEPARTMENT OF PUBLIC SAFETY
GENE W. SHEPARD, COMMISSIONER

The Honorable Terry E. Branstad
Governor of Iowa
State Capitol Building
Des Moines, Iowa 50319
LOCAL

Dear Governor Branstad:

I am pleased to transmit to you the Iowa Uniform Crime Reports, 1987 Annual Release. This report contains statistical information on criminal offenses reported to Iowa's law enforcement agencies during the 1987 calendar year and related matters. It continues a series of reports begun in 1976.

The report is based upon information provided to this Department by Iowa's local law enforcement agencies through the Iowa Uniform Crime Reporting System. As such, it is very much a cooperative effort between state and local agencies.

Very truly yours,

Gene W. Shepard

GENE W. SHEPARD
Commissioner

GWS:ecw
Enc.

COMMISSIONER'S OFFICE / WALLACE STATE OFFICE BUILDING / DES MOINES, IOWA 50319 / 515-281-5261

PREFACE

This report continues a series which started with the publication of the annual Iowa crime report for 1976 by the Iowa Department of Public Safety. It contains data for 1987 and is the culmination of combined efforts of the Research and Development Bureau, the Field Services Bureau, and the Data Services Bureau of the Iowa Department of Public Safety, and especially of Iowa's local law enforcement agencies. All of the state's 99 county sheriffs' offices, 122 municipal police departments, and the security departments of the three state universities contribute to the Iowa Uniform Crime Reporting System as direct reporting agencies. Additionally, all other local enforcement agencies report through their respective county sheriffs' offices.

The Iowa Department of Public Safety gratefully acknowledges the participation of the state's local law enforcement agencies in the Iowa Uniform Crime Reporting System, for they are clearly the lifeline of that system. Every direct reporting agency in Iowa has transmitted the required information to the Field Services Bureau of this Department for every month since 1977. This is a record matched in few, if any, other states. The Field Services Bureau and the Data Services Bureau are responsible for maintaining and updating the crime reporting system.

Preparation and publication of this report and others containing reported crime information for Iowa are the responsibility of the Department's Research and Development Bureau.

EXECUTIVE SUMMARY

A review of reported crime figures of Iowa for 1987 shows that some index offenses declined in volume while others increased. The Crime Index Total was down one percent from 1986. Four of the seven index offenses showed decreases during 1987: rape, robbery, burglary, and motor vehicle theft. The other three index offenses (murder, aggravated assault, and larceny) increased in frequency between 1986 and 1987. Reported violent index crime (murder, rape, robbery, and aggravated assault) decreased three percent while reported property index crime (burglary, larceny, and motor vehicle theft) decreased by only one percent. Arson, which is not included in the crime index, decreased nine percent making the third consecutive year of decrease for arson.

More specifically, murders accounted for the largest percentage increase during 1986. There were 16 percent more murders in 1987 than in 1986. Larcenies and aggravated assaults also increased by less than one percent each.

A decline of fourteen percent occurred in reported robberies from 1986 to 1987. The number of reported rapes decreased for the third year to 324 incidents in 1987, down nine percent from the 1986 total of 356. Reported motor vehicle thefts and burglaries also decreased five percent each from the 1986 totals.

Part II depicts rankings of Part I Crime rates in Iowa and compared to U.S. and regional rates. Iowa continues to show very favorable rates against both regional and U.S. rates in 6 out of the 7 crime index rates. Larceny is the exception (23 states reported higher larceny rates). Arson is not ranked due to lacking data. The violent crime rate in Iowa increased 43 percent from 1978 to 1987 while the U.S. rate increased 23 percent during the same period.

INTRODUCTION

Background

In 1974, the 65th Iowa General Assembly enacted into law Chapter 749B of the Iowa Code requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following is a reprint of a portion of this law (now Section 692.15) concerning Uniform Crime Reports.

> When it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense has been committed in its jurisdiction, it shall be the duty of the law enforcement agency to report information concerning such crimes to the bureau of a form to be furnished by the bureau not more than thirty-five days from the time the crime first comes to the attention of such law enforcement agency. These reports shall be used to generate crime statistics. The bureau shall submit statistics to the governor, legislature, and crime commission on a quarterly and yearly basis.

During December, 1974, the Iowa Bureau of Criminal Investigation, assisted by the Federal Bureau of Investigation, conducted schools throughout the State in the proper completion of Uniform Crime Reports. The schools were attended by most of the law enforcement agencies that were to contribute Uniform Crime Reports. On January 1, 1975, the Iowa Uniform Crime Reporting Program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted their forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980, to 225. The number of reporting agencies was reduced to 223 in 1981 but rose again in 1986 to 224. All reporting agencies have submitted data for every month since 1977.

In 1977 the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigation to the Department of Public Safety's Administrative Services Division (which maintains UCR field personnel, receives raw data from contributing agencies, and performs computer analysis of data) and the Research and Development Bureau (which further analyzes data, prepares the quarterly and annual reports, and responds to information requests). Questions concerning this report or addressing the topic of crime in Iowa should be addressed to the latter. The Department of Public Safety welcomes comments and suggestions regarding this report.

Method of Reporting

Iowa sheriffs' offices and police departments each month report the offenses, arrests, and clearances known to them within their jurisdictions. Crimes handled by State and Federal agencies are reported by the local jurisdictions in which the crimes have occurred. County sheriffs report activity occurring outside the jurisdictions of direct contributing police departments. With few exceptions, those police departments which contribute directly are in communities that have populations of 2,500 of greater. The number of direct reporting agencies in each category is as follows:

Number of Reporting Agencies by Type, 1987

Agency Type	Number
Sheriff's Offices	99
Police Departments	122
Regents' Universities	3
Total Direct Reporting Agencies	224

Offense Classifications

The Iowa Department of Public Safety forwards Iowa crime figures to the Federal Bureau of Investigation for development of nationwide statistics. Because the national program receives reports from law enforcement agencies throughout the nation, uniformity of classification and reporting procedures is necessary to overcome variations in the definitions of criminal offenses among states. For this reason, UCR definitions do not conform to the definitions set forth in the Code of Iowa. It should be noted that the Iowa Uniform Crime Reporting System does provide for the collection of more detailed information in certain areas of particular interest to Iowa, particularly farm-related theft, than is true of the national system.

Information contained in the Uniform Crime Reports in divided between Part I and Part II Crimes. Part I Crimes are generally those offenses that are considered most serious in nature, occur with greatest regularity, and are most frequently reported to law enforcement agencies. These crimes make up a "crime index," the bellwether of crime trends. The Crime Index includes all Part I crimes reported to law enforcement agencies, not the actual number of offenses occurring, nor the number of arrests being made. Also, arson is not included in the index. For the purpose of analysis, Part I Crimes are divided into violent and property crime:

Violent Crimes

Murder - the willful, non-negligent killing of one human being by another.

Forcible Rape - the carnal knowledge or attempted carnal knowledge of a female forcibly against her will.

Robbery - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by violence or by putting the victim in fear.

Aggravated Assault - an unlawful attack or attempt by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

Property Crimes

Burglary - Breaking or Entering - the unlawful entry or attempted entry of a structure to commit a felony or a larceny.

Larceny - (except motor vehicle thefts) - the unlawful taking of property from the possession or constructive possession of another.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle. Farm equipment, construction equipment, boats, and airplanes are specifically excluded from this category and are included under larceny.

Arson - the willful or malicious destruction or attempted destruction of property by fire.

In 1979, Congress mandated that arson become the eighth index offense, thus making arson a Part I crime instead of a Part II crime. To include arson in Iowa's crime index, however, would invalidate the comparison of index crime over time. Therefore, figures for index crime in Iowa include murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft, but not arson. Reported arson offenses are compiled separately from the index (see Table 10). In order to maintain comparability with prior years, arson arrests continue to be included in the Part II category.

Part II crimes are all those not included in the Part I category. Part II crimes include offenses such as simple assault, vandalism, prostitution and offenses against the family and children. There is no "index" for Part II crimes which are reported to law enforcement agencies in the UCR system. Arrests for Part II crimes are included, however, in the UCR system, as are Part I offenses. The narrative portion of this report concentrates on reported Part I crimes.

Organization and Methodology of the 1987 Report

Part I of this report contains information on trends in reported crime in Iowa since 1982 and analyses of statewide patterns of reported Part I offenses during 1987. Each of the eight index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson) is depicted in this report by two trend charts. One chart shows the annual volume of each offense between 1982 and 1987. A second chart depicts the annual rate for the offense for the same period. Rates based on offenses reported per 100,000 estimated population can be more reliable trend indicators than are raw totals since population shifts are considered. The 1987 estimated population of Iowa and its reporting jurisdictions are based on U.S. Bureau of the Census estimates provided by the FBI to the Iowa Department of Public Safety.

Part II of this report contains two sections. The first covers crime rate comparisons for Iowa, the West North Central region, and the United States as well as 10 year trend analyses of Iowa index crimes and United States index crimes, and associated narrative. The second section contains tables comparing reported offense totals, index crime rates, and clearance rates during 1987 for the 224 local law enforcement jurisdictions in Iowa which participate as direct reporting agencies in the Iowa Uniform Crime Reporting System and an extension of Part III of this report.

Part III of this report is a reproduction of a computer printout produced by the Data Services Bureau of the Iowa Department of Public Safety. This section contains compilations of raw data, in tabular form, which have been transmitted to the Iowa Uniform Crime Reporting System by local law enforcement agencies during 1987.

The 224 contributing agencies submit monthly crime reports to the Department of Public Safety usually within ten days of the end of the month. In instances in which incomplete or erroneous reports are received, corrected reports are normally submitted within one additional month. The Field Services Bureau monitors agency submissions and has exerted considerable effort to achieve 100 percent reporting in every year since 1977.

Since the bulk of this report is made up of charts and tables, substantial effort has been made to make these presentations understandable, logical in format, and useful to local law enforcement officials and other interested parties. Comments regarding the utility of these presentations are welcome.

Due to rounding, not all percentages add up to 100 percent in each figure. In addition, most offense rates have been rounded to the nearest percent.

To assist understanding of some of the tables shown here, the following definitions are presented:

Metropolitan Statistical Areas (MSAs) - areas including a core city (or urbanized area) of at least 50,000 population and frequently including smaller surrounding jurisdictions.

Suburban Cities - cities of less than 50,000 population in the Metropolitan Statistical Areas, other than Iowa City which is the core city of the Johnson County MSA

Suburban Areas - all jurisdictions (including the sheriff) within an MSA with the exception of the core city.

Rural Areas - those areas in non-MSA counties which are served by the county sheriff or other agencies which do not report directly to the Uniform Crime Reporting system.

Suburban Sheriffs - county sheriffs in MSA counties.

Non-Suburban Cities - all cities outside of MSAs.

University Police - campus security departments of the Regents universities.

Uses and Limitations of the Uniform Crime Reporting System

The UCR system has been developed to serve as a tool to assist jurisdictions in obtaining comparable information which can assist in the allocation of personnel, budgeting, deployment of resources, and the like. Under ideal circumstances, the system can be of great benefit to criminal justice agencies, other public and private agencies, and to interested citizens.

Nevertheless, caution should be exercised in making direct comparisons of crime, arrest, and clearance data for different law enforcement agencies. Uniform crime reports should not be taken as a sole indicator, but used in conjunction with other data to better understand crime patterns. Index offense totals, for example, are reported crimes which relate to events while arrests relate to persons. A single reported offense may involve several crimes, several offenders, and several victims. Many arrests may involve only one such offense, while others result in a clearing of multiple offenses. An offense is "cleared" by the arrest of at least one person, or by exceptional means (e.g., suicide, or offender killed by police or citizen). Arrests must generally be accompanied by an offense charge and the offender(s) must by turned over to the courts for prosecution in order to count as a clearance.

In addition, statistics on reported crime do not distinguish between crimes committed by non-residents and residents in a particular jurisdiction. Listed below are some additional conditions which can affect data on reported crimes, arrests, and clearances in different areas.

1. Density of population and geographic size of community.
2. Composition of the population with particular reference to sex, age, and race.
3. Economic status of the population.
4. Mobility of the population.
5. Climate.
6. Educational, recreational, and religious characteristics.
7. Policies, effective strength, and standards governing appointment to law enforcement agencies.
8. Policies of the prosecuting officials, courts, and correctional agencies.
9. Public awareness of crime and concern about it.
10. Attitudes of the public toward crime and law enforcement agencies.

11. The degree to which law enforcement agencies adhere to crime reporting standards.

Limitations of the Uniform Crime Reporting System have been debated extensively. Relying primarily on the reports of citizens, the figures included in Uniform Crime Reports reflect wide variations in the tendency of citizens to report crimes. Citizens may not report all crimes to law enforcement agencies, believing that there is nothing the police can do, fearing retaliation from offenders, or wishing to avoid any involvement with the criminal justice system.

The degree to which crimes are reported by citizens varies considerably from offense to offense and from area to area. Based on victimization survey studies completed in metropolitan areas and nationwide, the percentage of actual crimes reported to law enforcement agencies is related to such factors as:

1. the seriousness of the crime and/or value of goods lost;
2. the victim's perception of the likelihood of apprehending the suspect;
3. the presence or absence of insurance on the stolen property.

Data from victimization surveys indicate that reporting rates may be as low as one in five for some crimes (e.g., larceny). Thus, the Uniform Crime Reports do not contain a complete accounting of crime within jurisdictions. However, the UCR system constitutes the best network of state and national crime figures currently available. Victimization survey data also indicate higher reporting rates for offenses other than larceny, although many offenses in each category apparently do not come to the attention of law enforcement agencies.

Inconsistent record-keeping procedures contributed to the inaccuracy of uniform crime reporting in past years. Within the past two decades, however, there have been dramatic improvements in law enforcement records management and reporting systems. These changes have probably had considerable effect on the amount of crime reported within some jurisdictions. Major metropolitan areas were in the forefront of this improvement with the procurement of sophisticated computer systems to record and keep track of reported crimes. Since the development of the Iowa UCR system, however, the most notable changes have occurred in some of the smaller jurisdictions, particularly in rural areas.

Although conclusive information on the subject is not available, it is possible that at least a portion of the increase in crime reported during past years is due to improvements in record-keeping, particularly in the rural areas. Further, because there rural jurisdictions started with low levels of crime--both in raw numbers and rate per capita--large percentage increases can take place without great numerical increases.

Changes in crime rates can also be affected by fluctuations which may be due to probability. Statistical theory indicates that the smaller the number in a sample--e.g., the smaller the number of reported crimes in a jurisdiction in a given year--the more susceptible the rate is to relatively great variation over time. What this means, in lay terms, is that the reported crimes in smaller jurisdictions will vary more from year to year--without necessarily indicating a trend-- than will reported crime in larger jurisdictions experiencing more crime.

PART I

1982 - 1987 TRENDS

1987 PATTERNS

I. INDEX CRIME TOTALS AND RATES

Iowa experienced a slight decrease in the number of index crimes reported to law enforcement agencies in 1987. The 1987 total of 117,234 index crimes reported to Iowa's law enforcement agencies represented a decline of 1 percent from the 1986 total of 118,336 reported offenses. Figure 1 illustrates the trend in the annual total of reported index offenses for the state from 1982 through 1987. The 1987 total (117,234) was 2 percent lower than that of 1982 when the reported figure was 119,760 but 6 percent higher that the period low in 1984 of 110,565 index crimes.

Figure 2 presents the annual rates (offenses per 100,000 population) of index crimes reported in Iowa during the years 1982 through 1987. As with the numbers of reported offenses, the index crime rate for the state had declined in the years 1982 through 1984 but rose again in 1985 and 1986, followed by a slightly decrease in 1987. In 1987 there were 4,130 index crimes reported to Iowa law enforcement agencies per 100,000 persons in the estimated population of the state, which was almost the same as the 1986 rate of 4,151 but 9 percent higher than the 1984 rate of 3,799.

The distribution of index crimes recorded in 1987 in Iowa by individual offense categories is shown in Figure 3. Again in 1987, 6 percent of the index crimes reported statewide were in the violent categories of murder, rape, robbery, and aggravated assault, while 94 percent were in the three property crime categories of burglary, larceny, and motor vehicle theft.

TOTAL INDEX CRIMES REPORTED
IOWA
1982 - 1987

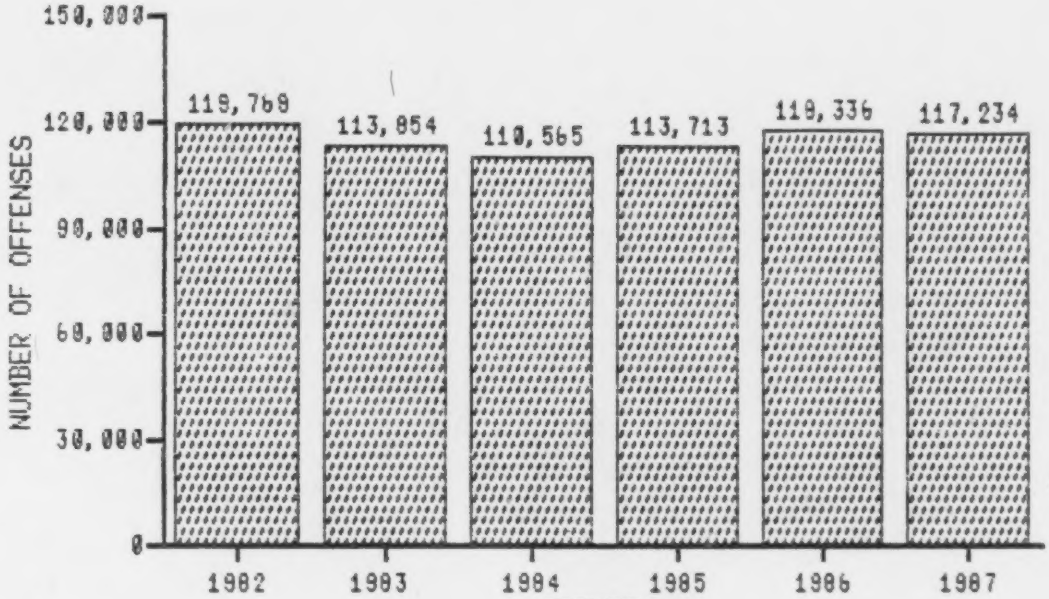

FIGURE 1

TOTAL INDEX CRIME RATE
IOWA
1982 - 1987

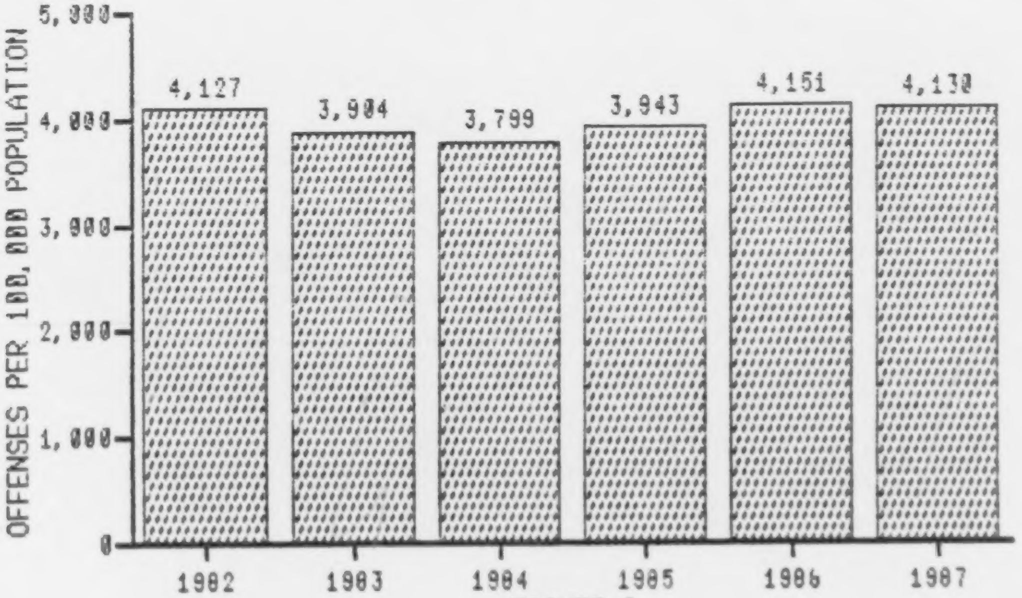

FIGURE 2

The percentage of 1987 index crimes which belonged to the violent categories (6 percent) was slightly higher than the 1986 figure of 5 percent. Larceny, however, increased 2 percent (and matched the 1982 high figure) accounting for 69 percent of Iowa's 1987 reported crime index. Burglary had the second largest percentage of the index crimes reported in 1987 with 22 percent.

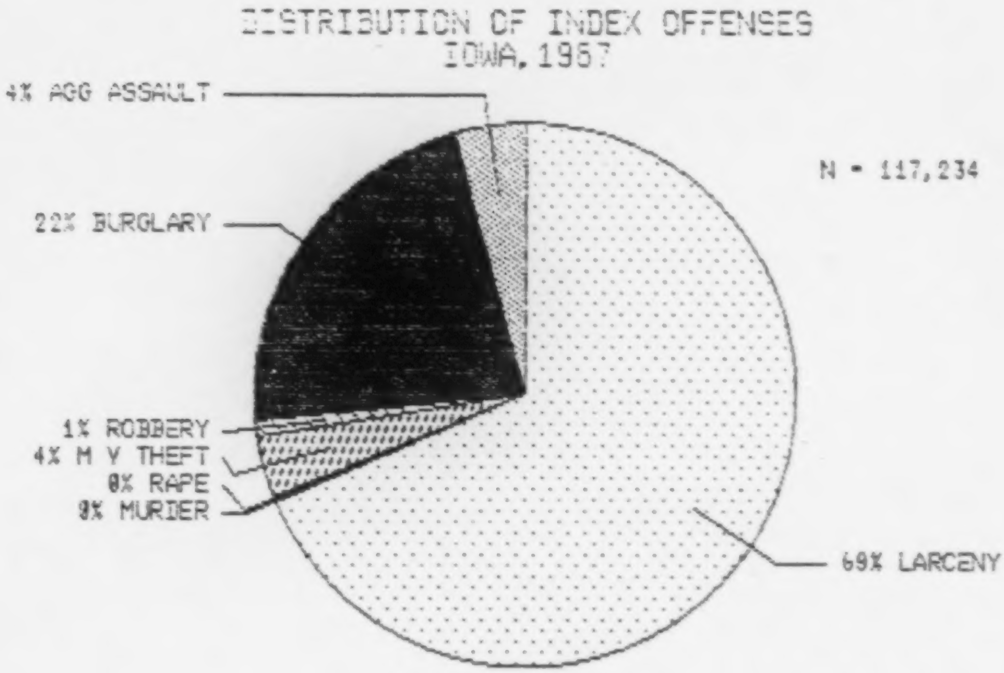

FIGURE 3

II. REPORTED VIOLENT CRIME

Figure 4 shows the trend in reported violent index offenses between 1982 and 1987 in Iowa. The 6,535 reported offenses recorded in 1987 represented a decrease of 3 percent from the corresponding 1986 figure of 6,703 offenses. The 1987 count was 29 percent more than the low annual figure in the period shown of 5,064 violent index offenses recorded in 1982.

Violent crime rates for the years from 1982 through 1987 are illustrated in Figure 5. This trend parallels that for reported violent crime totals shown in the previous figure. There was a 2 percent decrease in Iowa's violent crime rate between 1986 and 1987. Iowa's violent crime in 1987 was 31 percent higher than the 1982 rate.

III. REPORTED PROPERTY CRIME

Annual figures for reported property crime in Iowa for the years 1982 through 1987 are represented in Figure 6. The figure of 110,699 reported property crimes in 1987 was 1 percent lower than the number reported for 1986 (111,633). Figure 6 shows that the property crime index decreased for two consecutive years from the 1982 figure of 114,704 reported crimes, before increasing in 1985 and 1986 and decreasing again in 1987.

Property crime rates are depicted in Figure 7 for the years 1982 through 1987. The 1987 rate of 3,900 reported property crimes per 100,000 population was almost the same as the 1986 rate of 3,916, but 8 percent higher than the 1984 rate of 3,601 offenses per 100,000 population.

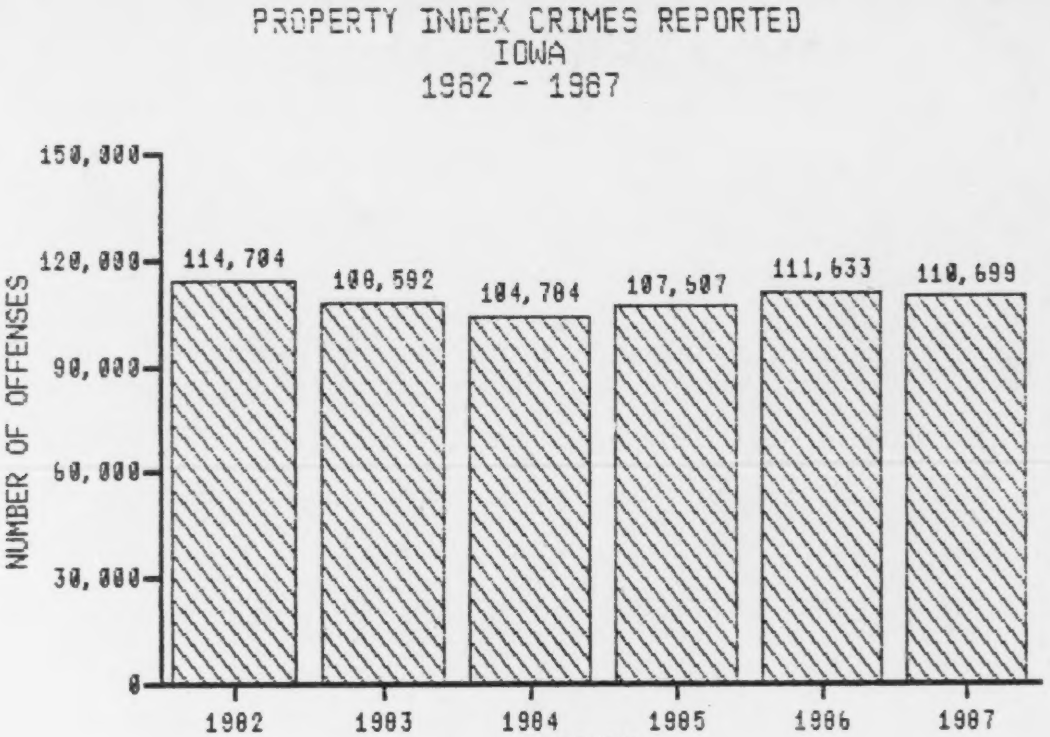

FIGURE 6

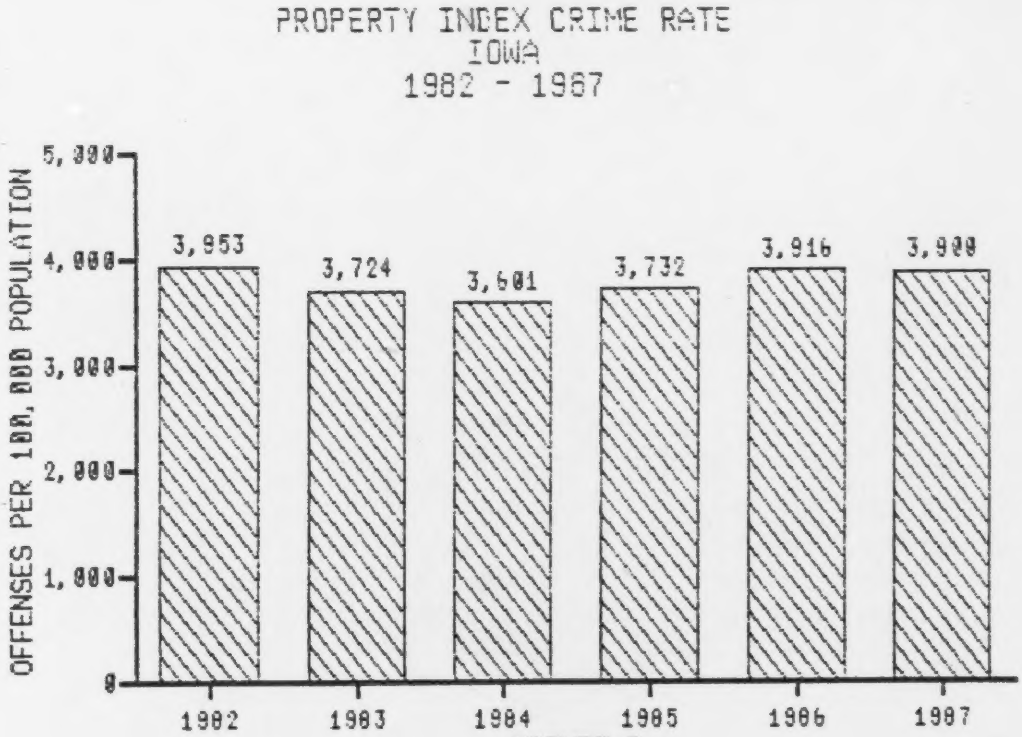

FIGURE 7

IV. VALUE OF PROPERTY REPORTED STOLEN AND RECOVERED

The estimated value of property reported stolen in Iowa during 1987 was $48,657,523. Of this total, about 13.4 million dollars ($13,404,566.) or 28 percent, was reported as having been recovered. The value of property reported stolen in the state during 1987 was 9 percent higher than the 1986 total of $44,767,271.

Figure 8 shows a breakdown of the estimated dollar value of property reported stolen in Iowa during 1987. As in all prior years for which data has been collected for Iowa, stolen motor vehicles made up the largest category, other than "miscellaneous." Stolen vehicles accounted for 12.2 million dollars of estimated value in 1987. The motor vehicle category of stolen property also had the highest recovery rate, 75.8 percent, or almost 9.3 million dollars worth.

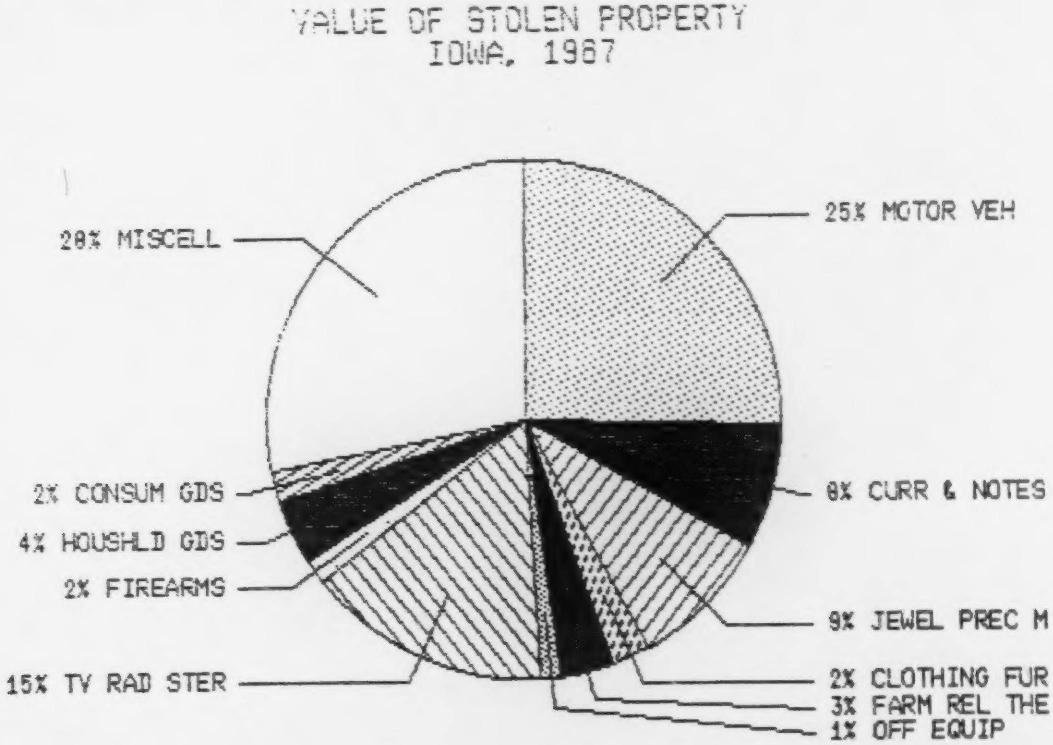

FIGURE 8 TOTAL VALUE - $48,657,523

Since 1979, the Iowa Uniform Crime Reporting System has provided for the collection of detailed information on farm-related theft. While this category accounted for only 3 percent of the total dollar value of property reported stolen in 1987, its significance to Iowa is enhanced by the central role of agriculture in the economy of the state. Of the $1,650,259. worth of property stolen in farm-related thefts during 1987, $761,003 worth was livestock. This was a fifteen percent increase over the dollar value of total livestock stolen in 1986 ($661,710). Overall, the value of farm related stolen property decreased from $2,637,711 in 1984 to $2,392,310 in 1985 (a decrease of 9 percent). From $2,392,310 in 1985 the value of farm related stolen property dropped to $1,680,984 (30 percent) followed by a slight decline of 2 percent in 1987 to $1,650,259 worth.

V. INDIVIDUAL INDEX OFFENSE CATEGORIES

A. MURDER

Figure 10 shows the number of murders recorded in Iowa each year from 1982 through 1987. There were 59 murders in 1987, an increase of 16 percent from the 1986 total of 51. The highest recorded number for this period was 68 murders in 1983. Identifying a trend in these figures is difficult because of the relatively small numbers involved. However, the 59 murders recorded in 1987 represented an end to a three year decline from the 68 reported murders in 1983 to the 51 reported murders in 1986.

Iowa's murder rate for the years 1982 through 1987 is illustrated in Figure 11. Parallel to the increase of recorded murders in 1987, the murder rate of 2.1 for 1987 represented an increase of 17 percent over the 1986 recorded murder rate of 1.8. The 1987 rate increase also marks the end of the 3 year decline in murder rates between in the period shown. The peak annual murder rate between 1982 and 1987 was in 1982 and 1983 with a rate of 2.3 offenses per 100,000 estimated population.

Substantial information concerning the characteristics of murders and their victims is manually tabulated from Supplemental Homicide Report forms submitted by local reporting jurisdictions. Breakdowns of these characteristics are illustrated in Figures 12 through 22.

Figure 12 shows the ages of murder victims during 1987. Thirteen (22 percent) of the 59 victims were between the ages of 16 and 25. The corresponding figure for 1986 was sixteen out of 51 murder victims (31 percent) who were between the ages of 16

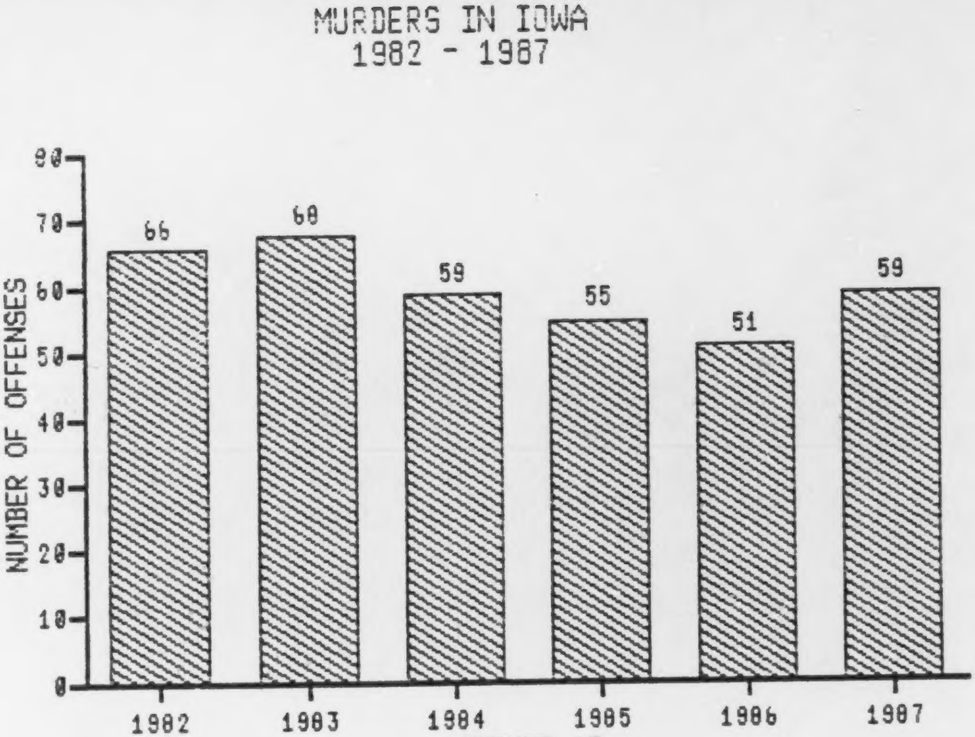

FIGURE 10

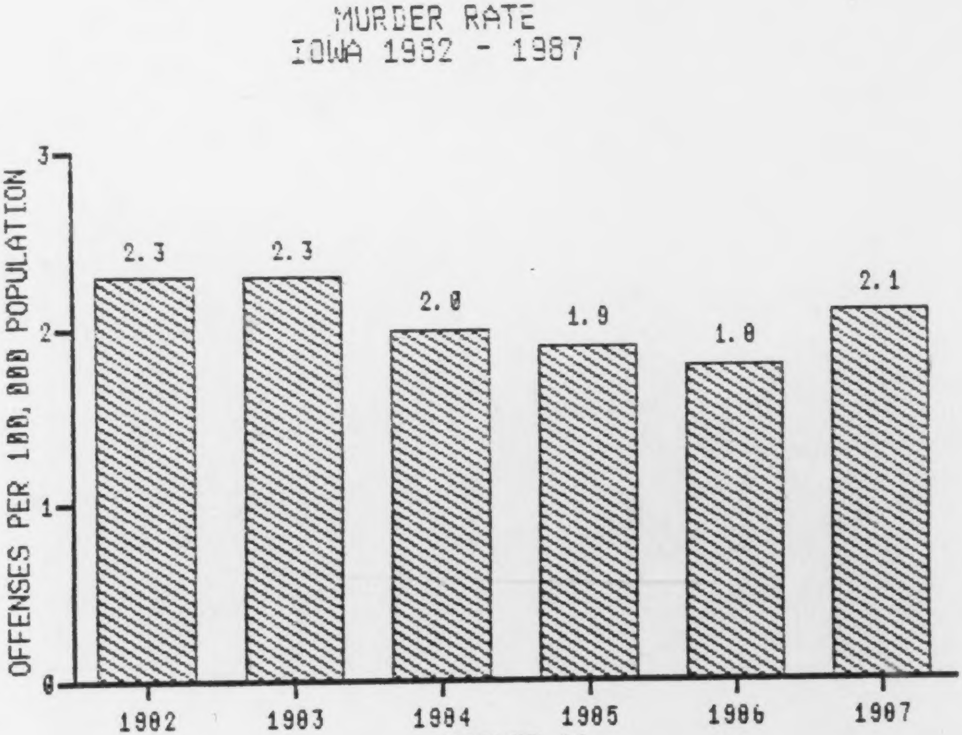

FIGURE 11

MURDER: AGES OF VICTIMS
IOWA, 1987

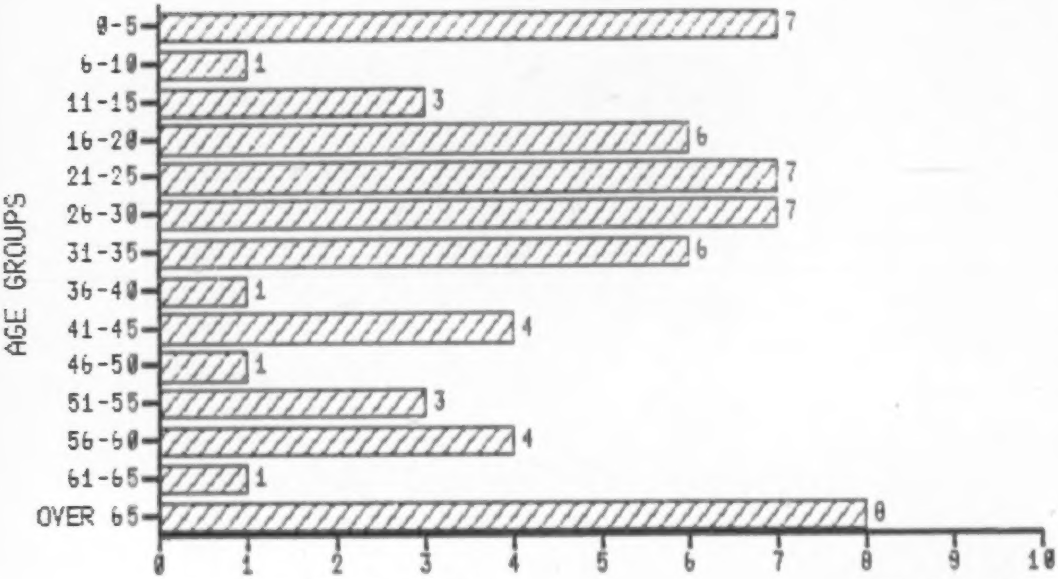

FIGURE 12

MURDER: SEX OF VICTIMS
IOWA, 1987

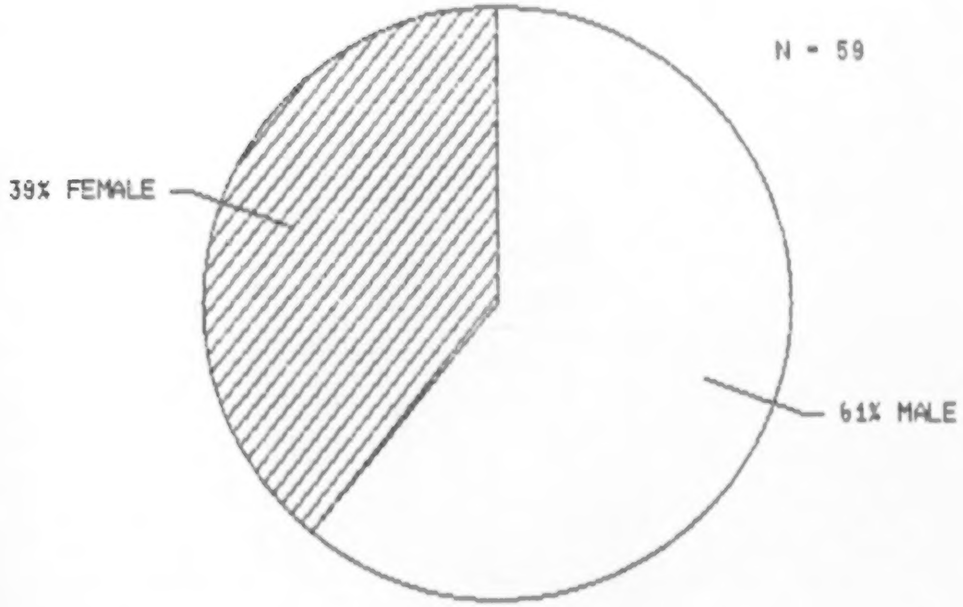

FIGURE 13

and 25. Fourty-six percent (27) of the 59 murder victims in 1987 were between the ages of 16 and 40. Twenty-one (36 percent) of the 59 victims were 46 years of age or over in 1987. In 1986 12 (24 percent) of the 51 murder victims were over forty-six years of age.

The sex of murder victims in 1987 is depicted in Figure 13. Thirty-six of the 59 victims (61 percent) were males. Thirty-nine percent, or 23 of the victims in 1987 were female. In 1986, the proportion of female murder victims was 37 percent (19 out of 51).

The racial distribution of the 59 murder victims recorded in Iowa in 1987 is illustrated in Figure 14. Forty seven of the victims (80 percent) were white. Seven (12 percent) were black. There were three victims who were of Asian or Pacific Islander origin and two victims were Native American. In 1986, 78 percent (40 out of 51) of the victims were white and 16 percent (8 out of 51) were black. There were three victims in 1986 who were of Asian or Pacific Islander origin.

Information is known about 54 murderers who were identified by Iowa law enforcement agencies in 1987. The next few charts present a summary of what is known about them. In five murder situations, the identities of the murderers were unknown.

Ages of known murderers are represented in Figure 15 for 1987. Forty-four percent of the identified murderers were between the ages of sixteen and twenty-five.

MURDER: RACE OF VICTIMS
IOWA, 1987

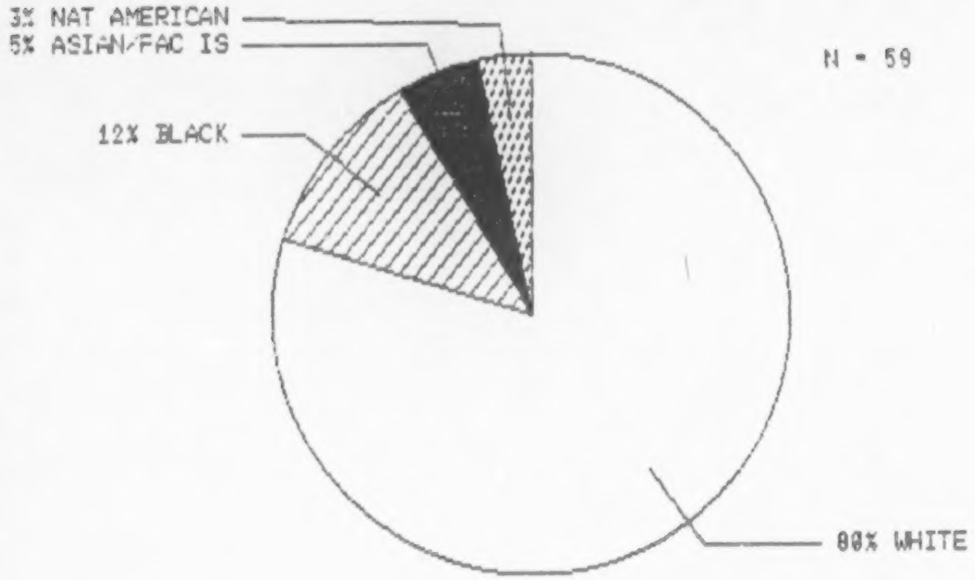

FIGURE 14

MURDER: AGES OF OFFENDERS
IOWA, 1987

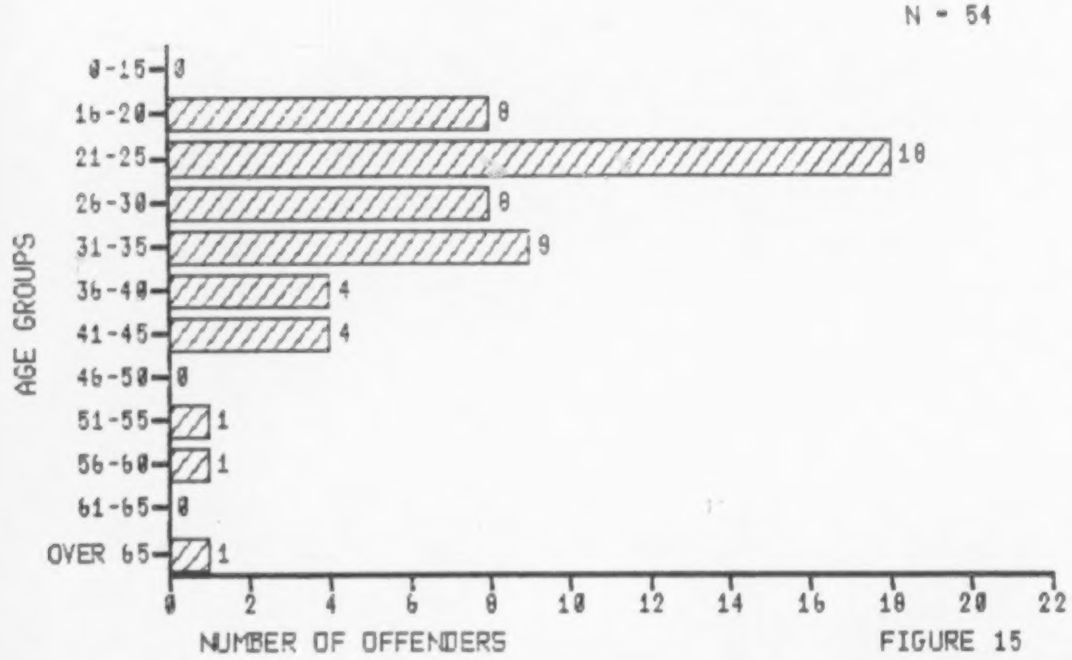

FIGURE 15

Figure 16 depicts the gender of known murderers in 1987. Nine of the fifty-four known offenders were females (17 percent). In 1986, 14 percent of known offenders were females. A breakdown by race of the identified murderers for 1987 is shown in figure 17. In 1987, 13 (24 percent) of the 54 known Iowa murder offenders were black; in 1986, 8 (18 percent) of the 44 know murders were black. Of the known offenders in 1986, one was Native American and one was of Asian or Pacific Islander origin while in 1987 there was 1 Native American offender.

Data on relationships between murderers and their victims is shown in Figure 18. Eighty percent of the 59 identified relationships involved prior acquaintance between the victim and the offender. Family relationships were identified 34 percent of the time in 1987. In 1986, family relationships accounted for 24 percent of the relationships.

The 52 murder situations reported in Iowa during 1987 are depicted in Figure 19. Seventy nine percent (41 out of 52) of the murder incidents involved a single victim and a single offender, which is a significant increase over 1986, when 57 percent of the murder situations involved a single victim and a single offender. However, multiple victims, multiple offender situations decreased from 5 percent in 1986 to none reported in 1987. Also, multiple victims, single offender situations decreased from 14 percent in 1986 to 6 percent in 1987.

Weapons usage in Iowa homicides during 1987 is illustrated in Figure 20. All of the 59 murder weapons were identified. Handguns were used in 16 percent of the murders recorded in 1987, which is a decrease from the 1986 recorded figure of 35 percent. However, the category of other firearms, which includes shotguns

IOWA, 1987

FIGURE 19

and rifles, were used in 18 percent of the murders in 1986 and in 32 percent of the 1987 murders. Also, the category of "cutting instrument" rose significantly from 10 percent of the 1986 murders to 28 percent of the murders in 1987.

Figure 21 depicts the circumstances of homicides recorded in Iowa in 1987. Circumstances involving family members, girlfriends and boyfriends, as well as jealousies, are included in the category labeled "domestic disputes." Fifteen percent (9) of the 59 known murders in 1987 stemmed from domestic disputes. The categories of "other felonies" and "arguements" represented 17 percent and 22 percent, respectively. In 1987, "child abuse" was reported in 14 percent of the cases while "child abuse" was reported 6 percent of the time in 1986 for the circumstances of Iowa murders.

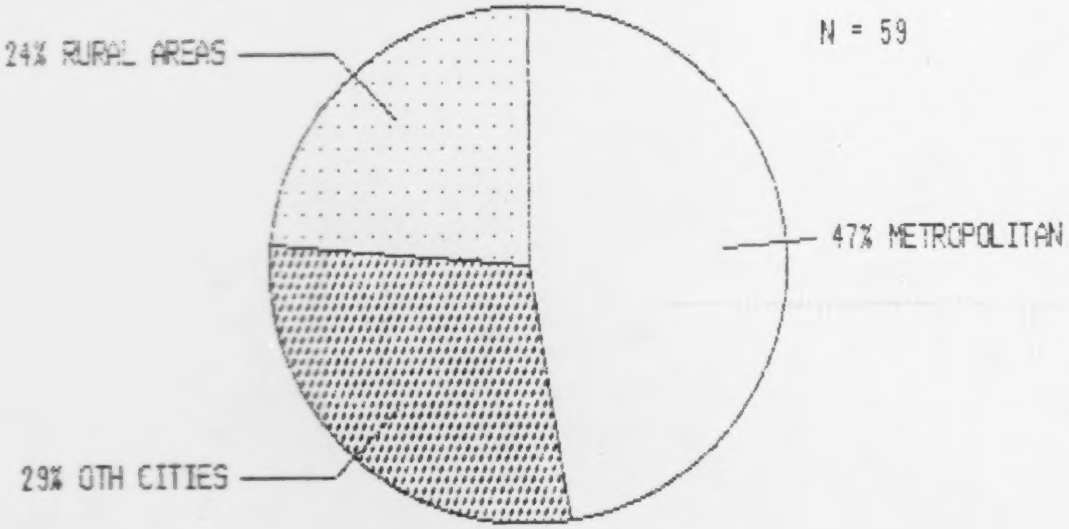

FIGURE 22

RAPES IN IOWA
1982 - 1987

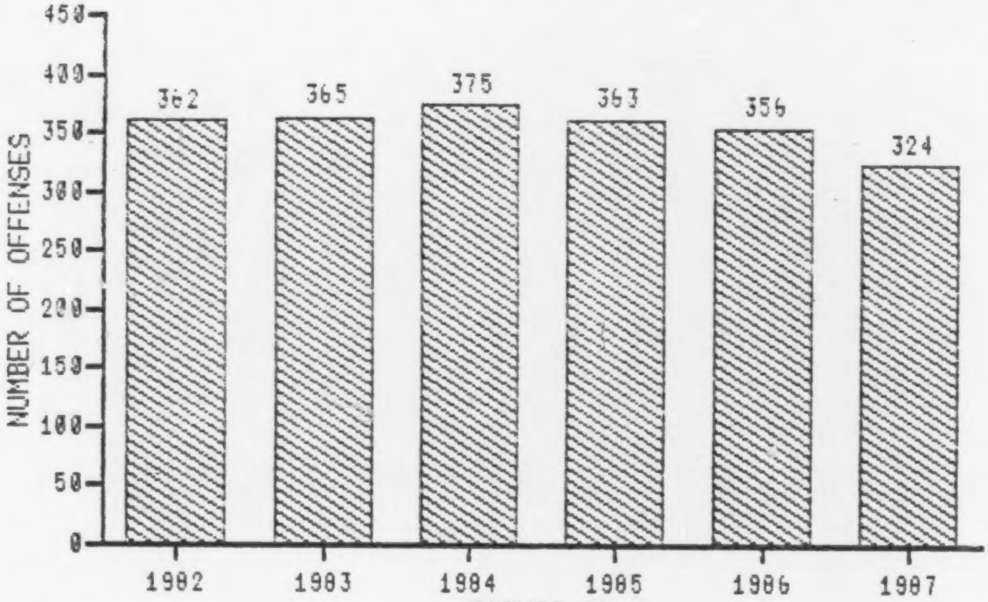

FIGURE 23

RATE OF REPORTED RAPES
IOWA, 1982 - 1987

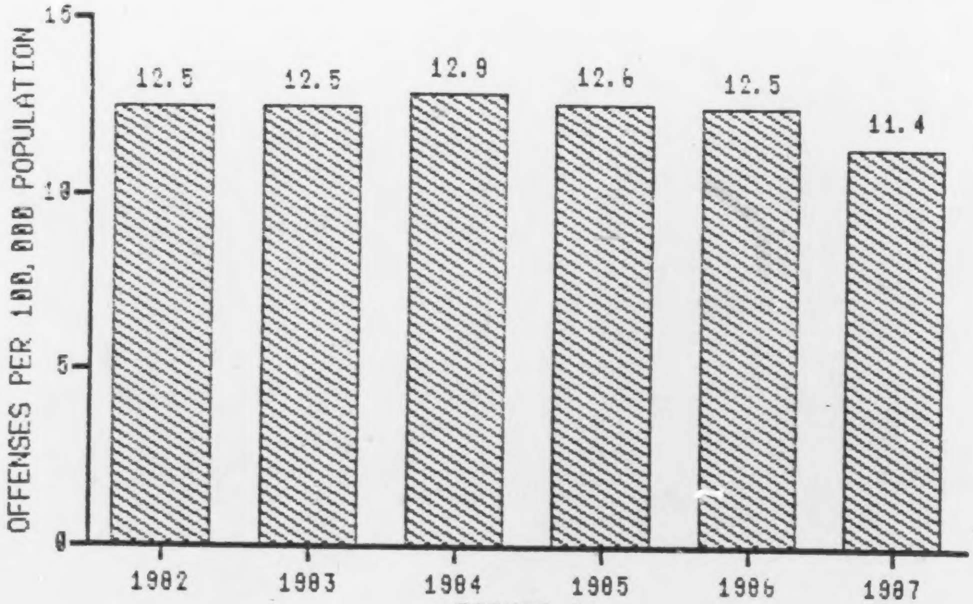

FIGURE 24

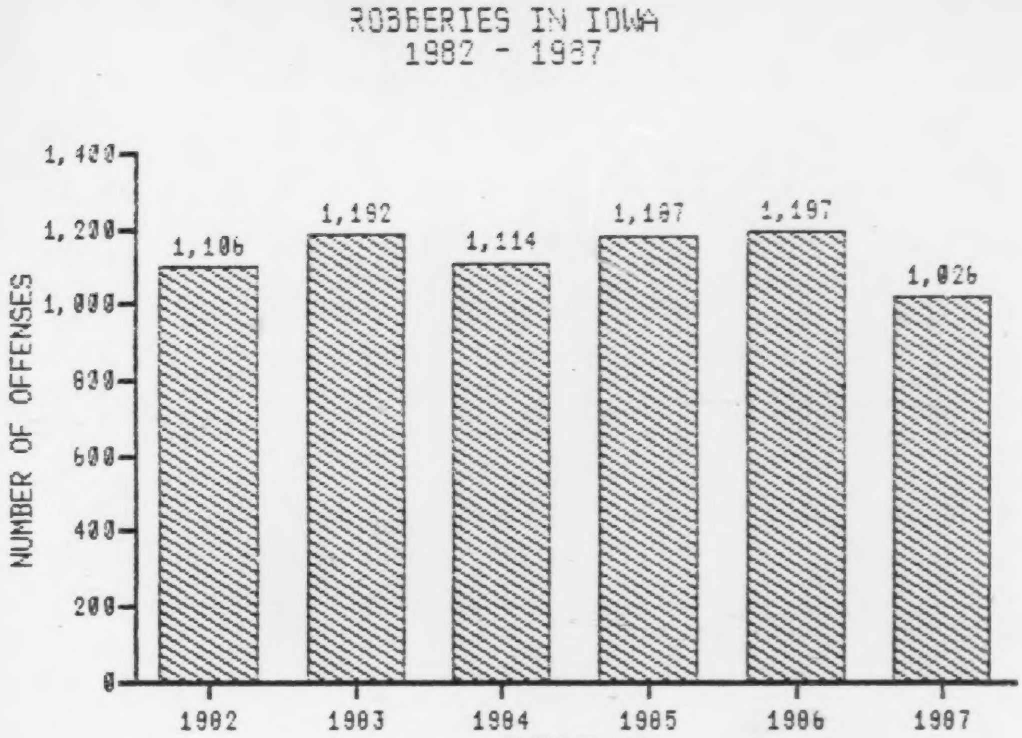
Data on murder locations during 1987 is shown in Figure 22. Fourty-Seven percent (28) of the 59 homicides occurred in Iowa's metropolitan areas decreasing from 57 percent (29 of 51) of the 1986 homicides. Seventeen (29 percent), of the murders in 1987 took place in "other cities," which is a increase from 20 percent in 1986. The category of "rural areas" accounted for 24 percent of Iowa homicides in both 1986 and 1987.

B. RAPE

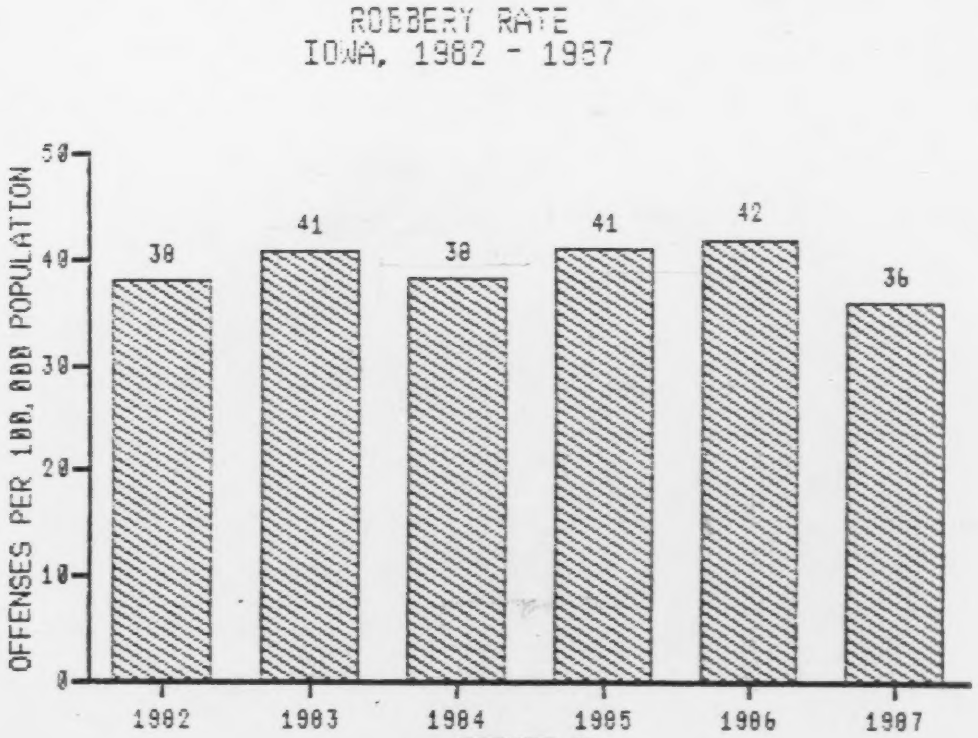
The trend in rapes reported to Iowa law enforcement agencies from 1982 through 1987 is shown in Figure 23. The 324 forcible rapes reported in Iowa during 1987 represented a decrease of 9 percent from the 1986 figure of 356, and 1987 was the third consecutive year in which reported rapes in Iowa had declined.

Offense rates for reported rapes in Iowa for the years 1982 through 1987 are shown in Figure 24. In 1987, there were 11.4 rapes reported in Iowa per 100,000 estimated population, a decline of 19 percent from the 1980 peak rate (not shown) of 14.1 rapes per 100,000 population in Iowa.



ROBBERIES IN IOWA
1982 - 1987

FIGURE 25



ROBBERY RATE
IOWA, 1982 - 1987

FIGURE 26

C. ROBBERY

Annual totals of robberies reported to law enforcement agencies from 1982 through 1987 are shown in Figure 25. There were 1,026 robberies reported to Iowa law enforcement agencies in 1987 which was a 14 percent decrease from the 1986 total of 1,197. The 1987 figure of 1,026 reported robberies was the lowest number of robberies reported in the period shown, representing a seven percent drop from the previous low of 1,106 robberies reported in 1982.

Iowa robbery rates for the years from 1982 through 1987 are shown in Figure 26. The 1987 rate of 36.1 offenses per 100,000 population was 14 percent lower than the 1986 rate of 42.0.

Figure 27 illustrates weapons used in Iowa robberies in 1987. Of the 1,026 robberies recorded in 1987, 32 percent involved firearms. Knives and other cutting instruments were used in 16 percent of the robberies, while 45 percent of the reported robberies were "strong-arm," that is, committed without the use of a dangerous weapon. In 1986, firearms were reported in 36 percent of the cases, while knives and other cutting instruments were used in almost the same proportion of cases as in 1987 being reported in 15 percent of the cases and strong-arm cases accounted for a lower percentage of the 1986 cases than of the 1987 cases, being reported in 41 percent of the 1986 cases.

Locations of robberies are depicted in Figure 28. In 1987, highway robberies made up 35 percent of the total, while residences were the target in 15 percent of the robberies. The 1987 percentages are similar to those for 1986.

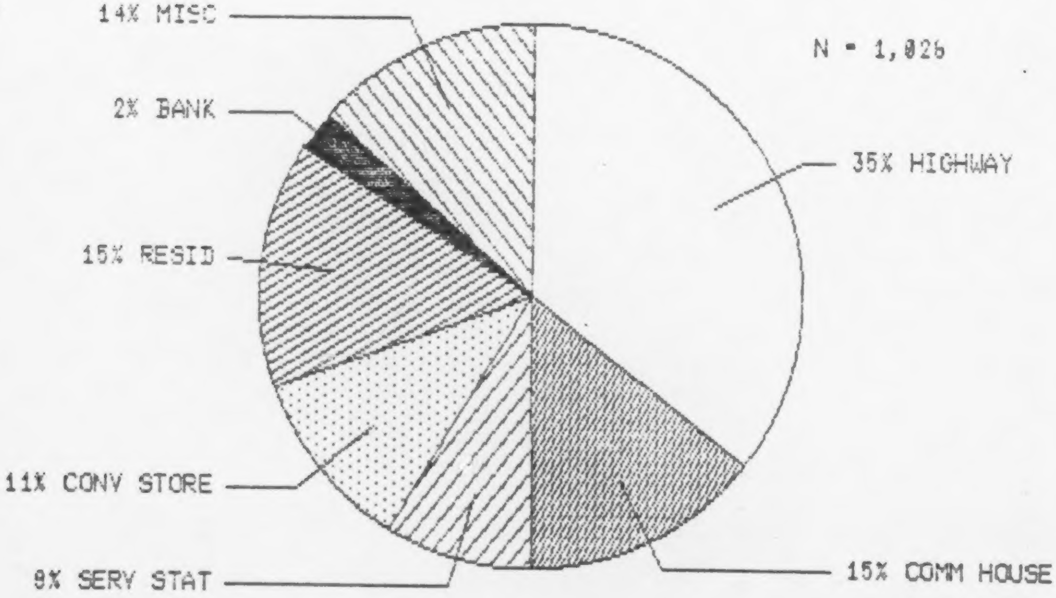

FIGURE 28

D. AGGRAVATED ASSAULT

Annual totals of aggravated assaults reported to Iowa law enforcement agencies are shown in Figure 29 for the years 1982 through 1987. The year 1987 marked the fifth straight year that aggravated assaults have increased. In 1987, aggravated assault increased by 1 percent, from 5,099 reports in 1986 to 5,126 cases. The 1987 figure is the peak annual number for the 1980's

Aggravated assault rates for 1982 through 1987 are illustrated in Figure 30. The rate for 1987 was the peak annual total for the period shown. The 1987 rate of 180 offenses per 100,000 estimated population was one percent greater than the 1986 rate (179) and 48 percent higher than the low rate during the period shown of 122 in 1982.

The types of weapons used in aggravated assaults during 1987 are depicted in Figure 31. Personal weapons were used in 58 percent of the aggravated assaults reported in 1987, with firearms being used in nine percent and cutting instruments in 13 percent of the assaults. The 1986 percentages of firearms and other dangerous weapons were similar to those of 1987 although cutting instruments were reported in 17 percent of the 1986 cases and personal weapons were reported in only 51 percent of the 1986 cases.

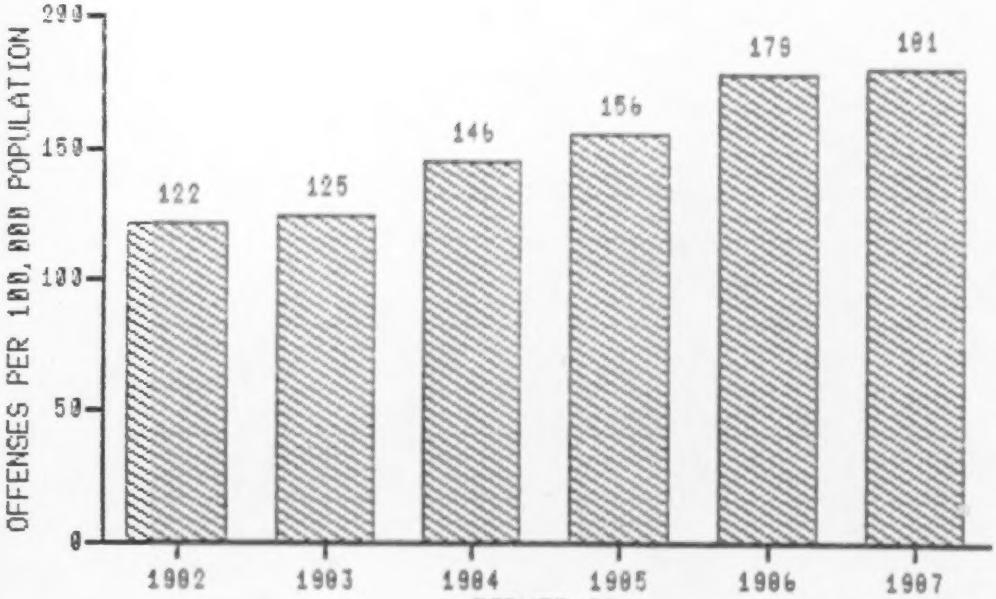

FIGURE 30

AGGRAVATED ASSAULT: WEAPONS USED
IOWA, 1987

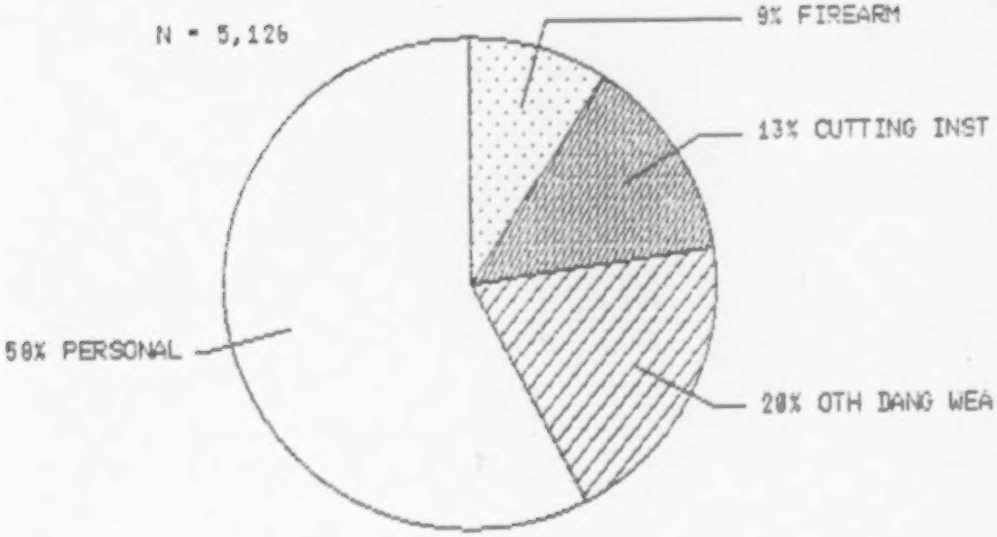

FIGURE 31

E. BURGLARY

Burglaries in Iowa declined in 1987 after increasing the prior two years. The 1987 total of 26,016 reported burglaries was 5 percent less than the 1986 total of 27,255. Compared to 1982, the 1987 burglary total also showed a decrease of 5 percent. Reported burglaries in Iowa between 1982 and 1987 are represented in Figure 32.

Iowa's burglary rate for 1982 through 1987 is illustrated in Figure 33. The 1987 rate of 916 reported offenses per 100,000 population was four percent lower than the 1986 rate of 956 and was five percent higher than the 1984 previous low figure for this period of 871 reported burglaries per 100,000 estimated population.

The distribution of burglaries by time of day and whether the target was residential or non-residential is shown in Figure 34. Similar to 1985 and 1986, the largest categories in 1987 were non-residential nighttime and residential nighttime burglaries.

Types of entry in Iowa burglaries during 1987 are summarized in Figure 35. Nearly seven of every ten reported burglaries involved forcible entry. Also, nearly one-forth of the reported burglaries required only a non-forcible, although unlawful entry. These percentages are quite similar to ones found for prior years.

BURGLARY: TYPES OF ENTRY
IOWA, 1987

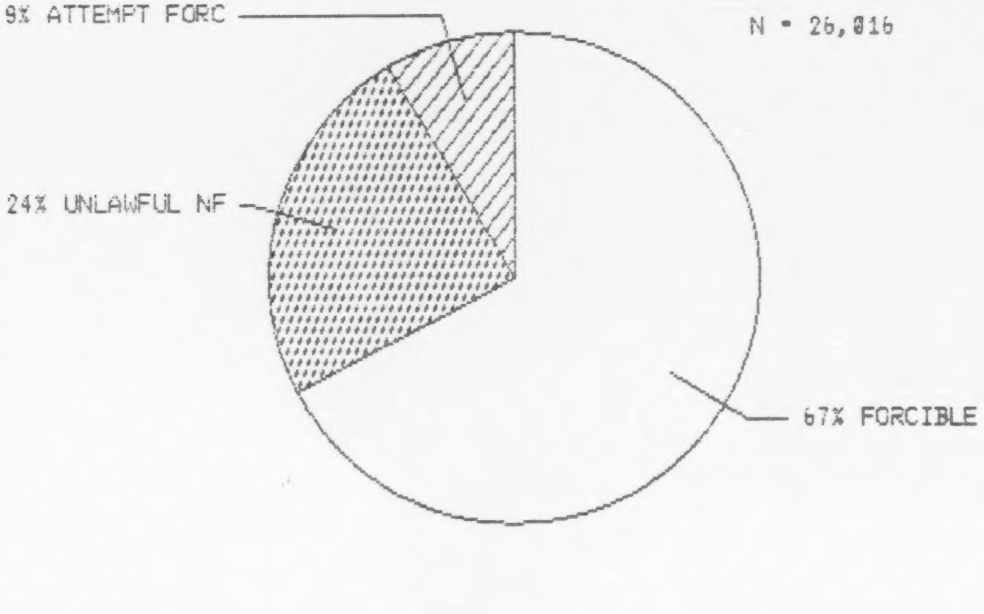

FIGURE 35

F. LARCENY

Reported larcenies in Iowa are represented in Figure 36 for 1982 through 1987. For the third consecutive year larcenies have increased from a reported 74,818 cases in 1984 to a reported 80,408 cases in 1987. The 1987 figure of 80,408 cases was 7 percent higher than the 1984 total (74,818)

Larceny rates for 1982 through 1987 are shown in Figure 37. The 1987 rate of 2,833 reported larcenies per 100,000 population was one percent higher than the 1986 rate (2,802) although it was 12 percent less than the decade high rate of 3,206 per 100,000 population in 1980 (not shown).

A breakdown of reported larceny by type for 1987 is shown in Figure 38. The residual "other" category was largest -- 26 percent of all larcenies. Approximately one of every six reported larcenies involved the theft of motor vehicle accessories, and one of every five reported larcenies involved thefts of objects from motor vehicles. The distribution for 1987 was almost identical to that for 1986.

FIGURE 38

MOTOR VEHICLE THEFT IN IOWA
1982 - 1987

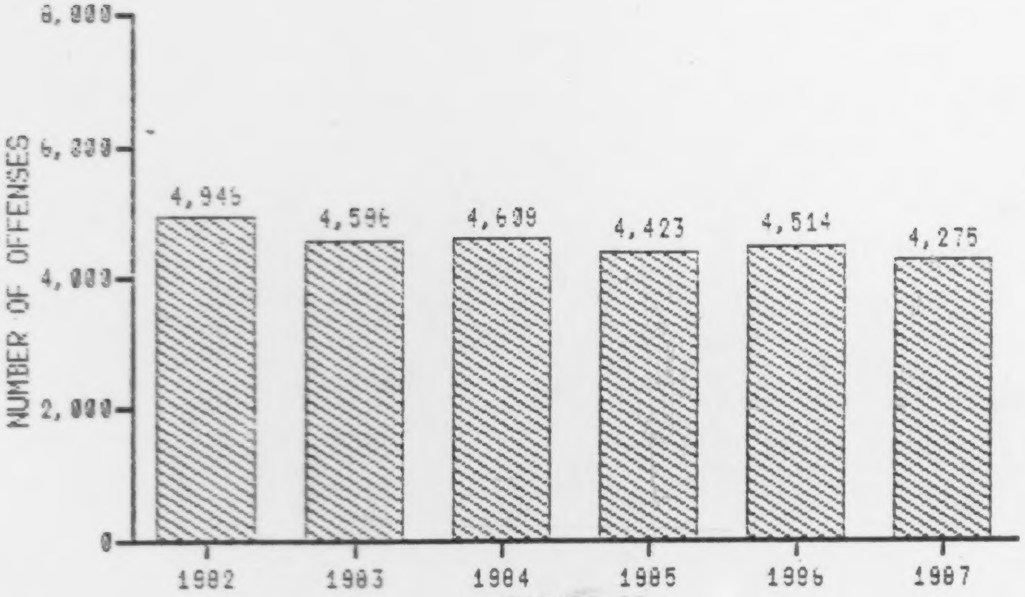

FIGURE 39

G. MOTOR VEHICLE THEFT

Annual totals of reported motor vehicle theft in Iowa for the years 1982 through 1987 are depicted in Figure 39. The number of motor vehicles reported stolen decreased 5 percent in 1987 to 4,275 from 4,514 in 1986. The 1987 total (4,275) was also 3 percent less than the previous reported low recorded in 1984 of 4,423 cases.

Iowa's motor vehicle theft rate for the years from 1982 through 1987 is shown in Figure 40. Parallel to the trend in the number of reported offenses, the 1987 rate of 151 thefts per 100,000 estimated population was 4 percent lower than the 1986 rate of 158. Also, the motor vehicle theft rate for 1987 was 11 percent lower than the 1982 rate of 170 and 44 percent less than the highest annual rate of 270 in 1979 (not shown).

The distribution of stolen motor vehicles in Iowa by type is shown for 1987 in Figure 41. Automobiles made up 56 percent of the vehicles reported stolen, while motorcycles accounted for 19 percent of the stolen vehicles. This distribution is similar to that of 1986.

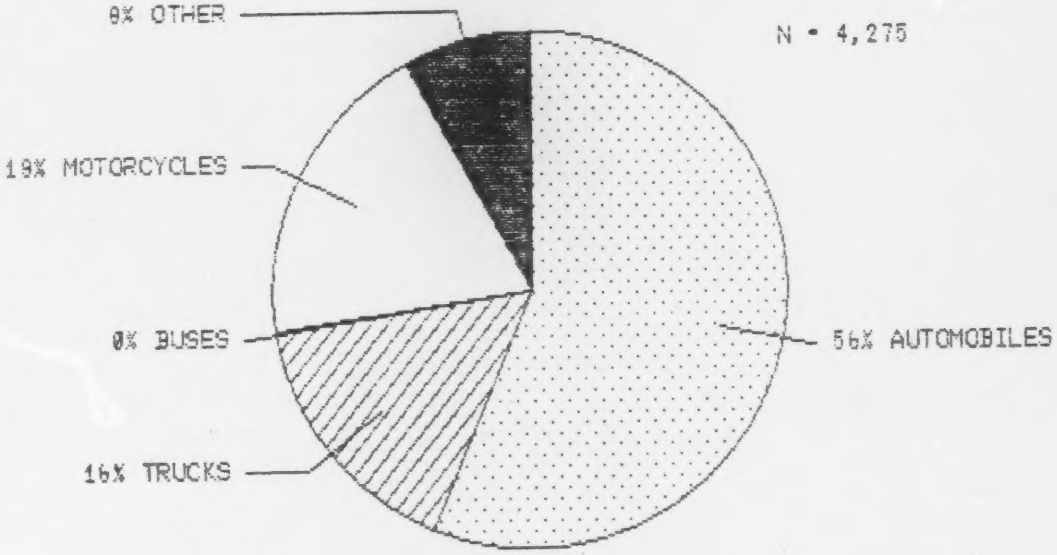

FIGURE 41

ARSONS IN IOWA
1982 - 1987

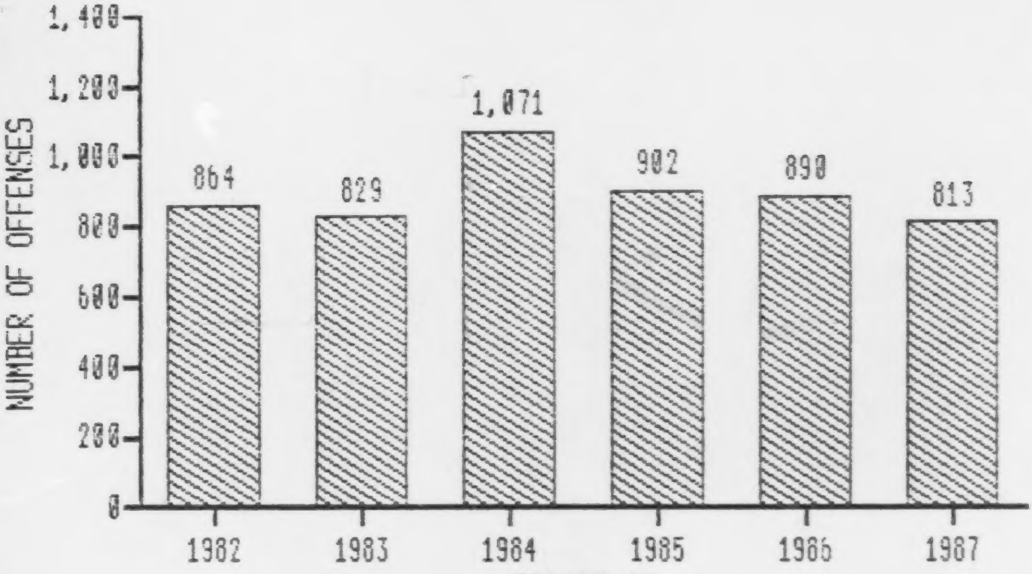

FIGURE 42

ARSON RATE
IOWA, 1982 - 1987

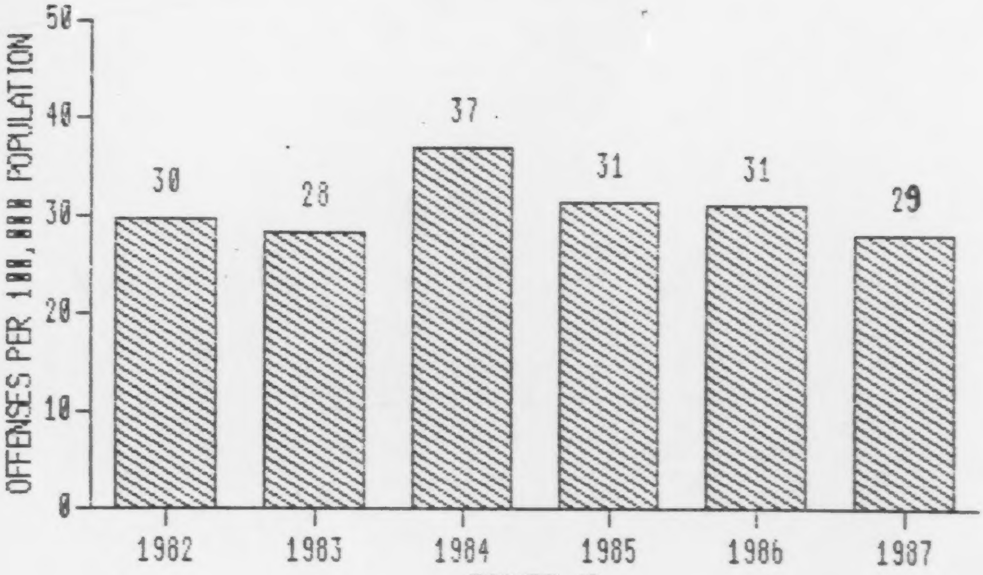

FIGURE 43

H. ARSON

Arson was added as a reportable offense to the Iowa Uniform Crime Reporting System in 1979. Regular reporting of arson offenses began in 1980. Figure 42 illustrates annual reported arson totals for 1982 through 1987. There were 813 arsons reported in Iowa in 1987, a decrease of 9 percent from the 1986 total of 890. The 1987 figure of 813 also represents a 2 percent decrease from the previous low of 829 cases reported in 1983. The highest number of arsons on record was in 1980 with 1,368 reported cases (not shown).

The arson rate for 1987 was 29 per 100,000 estimated population, 6 percent below the 1986 rate of 31 arsons per 100,000 population but the lowest rate was 28 arsons per 100,000 population recorded in 1983. The arson rate for the period 1982 through 1987 is shown on Figure 43.

The total value of arson damage reported for 1987 decreased by only 7 percent from the total in 1986 but by 66 percent from the total in 1985. Property loss damages from arson in 1987 were estimated at $3,993,372, whereas the 1986 figure was $4,278,065 (not shown) and $10,904,910 (not shown) was estimated for 1985.

The distribution of reported arsons in 1987 by the type of property involved is shown in Figure 44. While motor vehicles accounted for the largest number of arsons in 1986 (24 percent) but dropped to 18 percent of the total in 1987, single family residences accounted for 24 percent of the arsons in both 1986 and 1987. In 1987, arson directed single family residences accounted for $1,112,725 of estimated property losses and the corresponding value for 1986 was $1,917,941. While only recording three percent of the total number of arsons, industrial fires accounted for 13 percent of the estimated dollar loss in 1987. There were no industrial arsons reported in 1986.

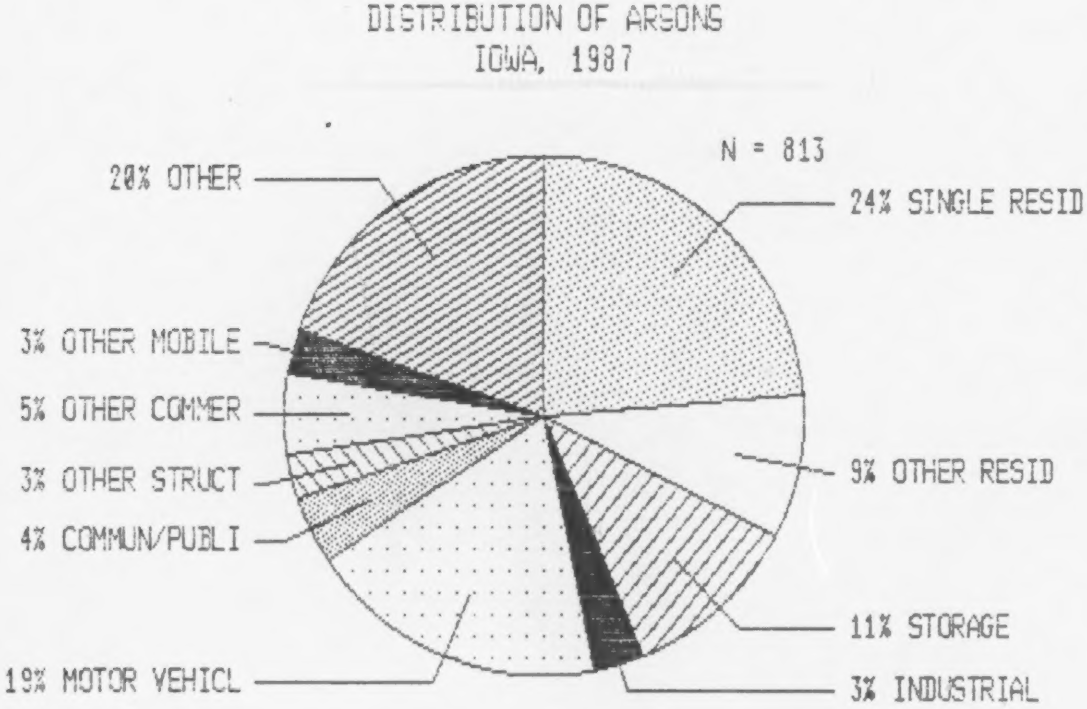

FIGURE 44

PART II

IOWA - REGIONAL - U.S.

CRIME RATE COMPARISONS

1987

IOWA - REGIONAL - U.S. COMPARISONS

Iowa experienced a slight decline in its total index crime rate during 1987. The total index crime rate of 4130.4 offenses per 100,000 estimated population was .5 percent less than the comparable 1986 figure of 4151.3. Also, with the drop in crime rate there has been a decline in Iowa's ranking among the 50 states from 35th place in 1986 to 39th place in 1987. The states with the highest offense rate ranks number one while the state with the lowest rate ranks fiftieth. Fifteen states had lower index crime rates than Iowa in 1986, but in 1987 there were only 11 states with lower rates than Iowa.

As Table 1 demonstrates, Iowa's national ranking for Part I Crimes deteriorated in two of the seven categories during 1987. Iowa's ranking for violent crime rate went from 42nd in 1986 to 41st in 1987. Despite the less favorable rankings for Iowa in 1987, the state was still among 15 states with the lowest Part I Crime Rates in every offense category except larceny. (Rankings are not available for arson.)

In three categories, Iowa held the same ranking for a Part I Crime for 1987 as it did in 1986. Table I shows that the state had the same ranking among the 50 states for 1986 and 1987 for rape, robbery, and motor vehicle theft at 49, 41, and 47 respectively.

Iowa's crime rates are, for the most part, lower than both the U.S. and regional Part I crime rates. The state of Iowa is included in the West North Central Region which is comprised on Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota. During 1987, Iowa's crime rates were below every regional offense rate except one and were below every U.S. Part I offense rate.

Table 2 and figure 1 show that Iowa's index total rate for 1987 was 4130.4 offenses per 100,000 estimated population whereas the regional rate was 4416.7. Iowa's index rate was 6 percent less or 93.5 percent of the regional rate and 26 percent less or 74.4 percent of the U.S. rate of 5550.0.

Arson[3]	28.6	N/A	49.6	N/A	57.7	N/A

[1] West North Central Region includes Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

[2] Because of rounding, offenses may not add up to totals.

[3] Arson not included in Index Total or Property Total.

The sharpest contrast between Iowa crime rates on the one hand, and regional and national rates on the other hand was in the category of robbery. In 1987, the state had a robbery rate of 36.1 per 100,000 population which was 62 percent less than the regional rate of 94.6 and 83 percent less than the U.S. robbery rate of 212.7.

With a 1987 ranking of 27th among the 50 states, Iowa's reported larceny rate of 2832.9 was the only Part I rate to exceed the corresponding regional rate (2791.9). The larceny rate for Iowa in 1987 was 1.5 percent more than the regional rate and only 8 percent less than the U.S. rate of 3081.3 offenses per 100,000 population.

The violent crime rate figure for 1987 shows that nine other states had lower rates than Iowa. The state enjoyed a favorable position compared to the region since Iowa's violent crime rate of 230.2 was 33 percent less than the regional rate of 343.8. The 1987 violent crime rate for Iowa was also 62 percent less than the U.S. rate of 609.7 offenses per 100,000 population.

During 1987, Iowa had a reported property crime rate of 3900.1 offenses per 100,000 population which gave the state a ranking of 35th among the 50 states. This rate was four percent less than the regional property crime rate of 4072.9 and 21 percent less than the U.S. rate of 4940.3.

Iowa's reported murder rate in 1984 was one of the five lowest in the nation. As similar to other years, the state had a murder rate of 2.1 offenses per 100,000 population which gave the state a ranking of 47th among the 50 states. Iowa's rate was 52 percent less than the regional murder rate of 4.4 and 75 percent less than the U.S. murder rate of 8.3 murders per 100,000 estimated population.

In 1987 Iowa had the second lowest reported rape rate in the nation, North Dakota was the lowest with 7.7 reported rapes per 100,000 estimated population. Iowa's reported rape rate of 11.4 was 56 percent less than the regional rate of 26.1 and 69.5 percent less than the U.S. rate of 37.4 rapes per 100,000 population.

During 1987, there was a reported rate of 180.6 aggravated assaults per 100,000 estimated population in Iowa. This rate placed Iowa at 35th among the 50 states and was 49 percent less than the U.S. rate of 351.3. The comparable regional rate for 1987 was 218.7, or 21 percent more than Iowa's rate.

The 1987 burglary rate of 916.6 for Iowa gave the state a ranking of 38th. Iowa's burglary rate was 8.5 percent less than the regional rate of 1001.7 and 31 percent less than the U.S. rate of 1329.6.

Iowa's motor vehicle theft rate for 1987 was one of the five lowest in the nation. With a ranking of 47th, the reported motor vehicle theft rate in Iowa of 150.6 was 72 percent less than the U.S. rate of 529.4 offenses per 100,000 population. The comparable regional rate for motor vehicle theft was 279.3 for 1987.

There is no state ranking available for Iowa's 1987 arson rate. The reported rate of 28.6 arsons per 100,000 population in Iowa was, however, 42 percent less than the 1987 U.S. rate of 49.6.

Table 3
IOWA - U.S. COMPARISON
TOTAL INDEX CRIME RATE
1978 - 1987

Year	Iowa	U.S.	Iowa's Rate as % of U.S. Rate
1978	3,980.6	5,140.3	77.4%
1979	4,301.2	5,565.5	77.3%
1980	4,728.6	5,950.0	79.5%
1981	4,682.6	5,858.2	79.9%
1982	4,132.4	5,603.6	73.7%

1985	3,943.4	5,206.5	75.7%
1986	4,151.3	5,479.9	75.8%
1987	4,130.4	5,550.0	74.4%
% Change, 1978-1987	3.8%	8.0%	
% Change, 1982-1987	-.05%	-1.0%	
% Change, 1986-1987	-.5%	1.3%	

Table 3 and Figure 2 illustrates the trend in total index crime rates for Iowa and the U.S. between 1978 and 1987. Iowa's crime rate has been as low as 73.7% of the U.S. crime rate in 1982 and as high as 79.9% of the U.S. crime rate in 1981. The percentage changes for Iowa and U.S. crime rates show that the U.S. as a whole has experienced a faster increase in its total index crime rate between 1978 and 1987 than Iowa.

FIGURE 46

The trends in violent crime rates for Iowa and the U.S. are depicted in Table 4 and Figure 3. These illustrate that Iowa's violent crime rate has been much lower than the U.S. violent crime rate between 1978 and 1987. Iowa's rate of violent offenses per estimated 100,000 population has been between 31 percent and 38 percent of the U.S. violent crime rate. Therefore, Iowa's violent crime rate has been less than two-fifths of the U.S. violent crime rate for every year since 1978.

Iowa's violent crime rates, however, have shown a faster rate of change than the corresponding national rates increasing 42.8 percent between 1978 and 1987 while the U.S. recorded a 22.5 percent increase. Also, the rank of Iowa has gone from 47th in 1978 to 41st in 1987.

* INCLUDES REPORTING POLICE DEPARTMENTS SERVING JURISDICTIONS WITH LESS THAN 50,000 POPULATION AND REPORTING SHERIFFS' OFFICES IN STANDARD METROPOLITAN STATISTICAL AREA COUNTIES (WOODBURY, POTTAWATTAMIE, POLK-WARREN-DALLAS BLACK HAWK-BREMER, LINN, DUBUQUE AND SCOTT).

CITIES ARE GROUPED BY POPULATION SIZE CATEGORIES (GROUP A - NOT USED. GROUP B - OVER 50,000. GROUP C - BETWEEN 25,000 AND 50,000. GROUP D - BETWEEN 10,000 AND 25,000. GROUP E - BETWEEN 5,000 AND 10,000. GROUP F - LESS THAN 5,000).

SUBURBAN & NON-SUBURBAN POLICE DEPARTMENTS ALSO INCLUDED IN CITY SIZE GROUPS.

THIS TABLE INCLUDES ONLY THOSE AGENCIES WITH 100% REPORTING.

ACKNOWLEDGMENTS

Preparation of this report was the responsibility of the Research and Development Bureau, which is directed by J. Michael Laski. The report was prepared by Martha J. Coco, Statistical Research Analyst, under the supervision of Michael R. Coveyou, Research and Statistics Manager.

Data collection for the Uniform Crime Reporting System is the responsibility of the Field Services Bureau, under the direction of Sam Knowles. Field Services personnel directly involved in crime data collection and data entry for this report have been Pam McDonald, Pat Vinson, Jean Krohn, and Shelley Cabelka.

Computer processing of the data is undertaken by the Data Services Bureau, directed by Lawrence Grund. Production of printouts for this report has been handled by Dale Aguiar and Clara Gilmore, supervised by Doug Linder.
